

## **Capstone Proposal**

### **1. Topic: Asthma**

- a. I would like to look into the Social Determinants and Health Equity data. They have an Asthma Call-back Survey and Asthma Surveillance Data. As a person with Asthma, I would like to look further into this topic and analyze what has been reported using healthdata.gov.
- b. <https://healthdata.gov/dataset/Social-Determinants-and-Health-Equity-Resource-Gui/vbjv-rh5z/data>

### **2. Topic: Covid**

- a. I would like to look into the COVID-19 Community Vulnerability Crosswalk to see the communities that were impacted most by covid. Based off of what I've heard, communities of color have been the most vulnerable and I would like to draw my own conclusions.
- b. <https://healthdata.gov/Health/COVID-19-Community-Vulnerability-Crosswalk-Rank-Or/rnkf-8dm6>

### **3. Topic: Education**

- a. My baby will be attending an academy in August and it has increased my interest in his future education. Covid has caused education to completely shift with the types of learning provided. So, I would be interested in looking at the School Learning Modalities data to find out more information on the current options.
